COMPLETE SPECIFICATION.

A Teat Dilator and Obstruction Remover.

I, RICHARD HUDSON, of 56, Bridgegate, Retford, Notts., British, do hereby declare the nature of this invention and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement:—

20 The instrument consists of a wire spiral Fig. 1A of a size suitable for introducing into a cow's teat & fixed in a handle B. The spiral has two or more turns, the one nearest the handle having a sharp edge C, the distant one ending in a central point D. The spiral is to be 25 screwed into the teat, through the obstruction Fig. 2 E & sharply withdrawn. 30

In the accompanying drawings:—

Fig. 1 illustrates the teat dilator

35 A being the spiral

B the handle

C the sharp edge of the lower spiral

D the introducing point.

Fig. 2 illustrates the said teat dilator in position in a cow's teat

E represents the obstruction. 40

Having now particularly described and ascertained the nature of my said invention and in what manner the same is to be performed, I declare that what I claim is:— 45

A teat dilator consisting of a wire spiral, Fig. 1A, fixed in a handle B, the spiral having two or more turns, the turn nearest the handle having a sharp edge C & the distant one ending in a central point D. 50

Dated the 24th day of April, 1926.

RICHARD HUDSON.
